 - b) 1 x Condenser Mic (or equivalent) for Snare Drum => 1 XLR => D.I => Board
 - c) 1 x SM58 => 1 XLR => Board

Backline Summary

The Band will supply – 2 electro-acoustic guitars, 1 djembe drum and drum stand, 2 electric basses, drum kit breakables (where a house drum kit is provided) OR full acoustic drum kit, 4 jack leads, 1 FX box, 3 guitar stands, 2 drum rugs.

Venue to supply: 5 X VOCAL MICROPHONES – SHURE SM58'S OR EQUIVALENT, 4 X CARDIOID/CONDENSER MICROPHONES FOR THE DJEMBE AND DRUM KIT, 7 X SWAN NECK MIC STANDS, 10 X XLR LEADS, 5 X D.I BOXES.

If the venue is unable to provide any of the equipment above, please contact either Lorien or Amanda at thefiresidefamily@gmail.com so we can coordinate other arrangements.

Frontline Description

As a minimum, we will need the venue to supply a basic P.A. This will require 2 – 4 500 watt front of house active speakers, 5 floor monitors and a minimum of a 12

track mixing desk, 10 XLR Leads, 5 x vocal mics (SM58's) and 4 x cardioids/condenser mics , all with swan neck stands. EQ will be standard, and we would require a sound engineer to operate the system. Each musician will need his or her own monitor, with a basic equal balance of sound, with mainly the guitars and vocals taking precedence.

Notes for the Sound Engineer

We appreciate how busy it can get, so for a little heads up here is a link to our music should you have the time to get a feel for our sound. Think Ed Sheeran meets Fleetwood Mac: <https://soundcloud.com/the-fireside-family>

Thank you in advance, and if you need any more information from us our email is thefiresidefamily@gmail.com and you can reach us on 07504351834.
